

Policy Number: 2021-04
Effective Date: 07/01/2021
Revised Date: 07/01/2021
Applicability: Hydrogen Gas Use and Storage in Laboratories

Purpose

To provide a guideline identifying the safety protocols when using hydrogen gas in a laboratory that are required by Environmental Health and Safety.

Policy

The use of hydrogen gas in labs must follow the guidance of the Occupational Safety and Health Administration (OSHA) 1910.1450 and other sections related to the materials used in laboratory safety.
