

Policy Number: 1
Effective Date: 1/1/1990
Revised Date: 5/1/2019
Applicability: Safety Committees Policy

Purpose

Safety committees are established to help maintain a safe work environment in areas where significant laboratory or research work is conducted.

Policy

Safety Committees shall be established in areas where significant laboratory work is conducted as well as in support of specialized areas such as Biosafety or Radiation Safety. Safety Committees support research requirements established by grant providing agencies such as National Science Foundation or the Department of Defense.
